

Khalifeh International Contracting Company

Company Profile

KEY INFORMATION

Company Details & Description:

Year of Establishment	: 1974
Nationality	: Jordanian
Location	: Amman, Jordan, Wasfi Al-Tal Street
Classification	: 1st class construction works. 2nd class electromechanical works
Owners	: Mouayed Khalifeh - Laila Tabba'a

Managerial Structure

President	: Mouayed Khalifeh (Civil Engineer)
General Manager	: Mouayed Khalifeh (Civil Engineer)
Project's Manager	: Emad Afram (Civil Engineer)
Permanent Staff	: Administrative 23 Technical 44
Temporary staff	: Variable According to Running Projects Requirements

We follow certain management methods in our projects, where each project has a dedicated Project Engineer and the required staff, which is usually requested in the contract by the Client. All projects progress is followed by daily reports forwarded to the main office.

As for the temporary staff it is variable, since any additional manpower needed can always be supplied from the local market. The main office usually buys and hires the supplies and machinery needed by the Projects.

Bankers Statement

We have been dealing with two banks for over than Thirty Two years who always supplement us with the required guarantees and letters of credit as well as draft facilities when needed:

- **Cairo Amman Bank** *Main Branch*

Amman - Jordan
Tel : +962 (6) 463 9321
Fax : +962 (6) 463 9328

- **Arab Egyptian Land Bank** *Main Branch*

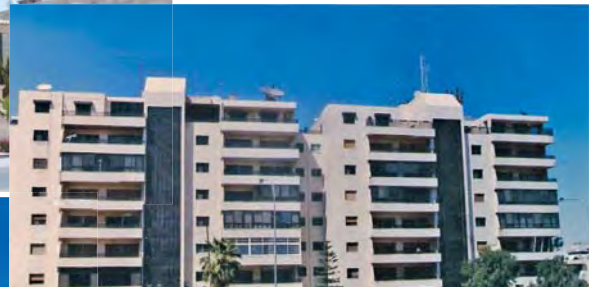

Amman - Jordan
Tel : +962 (6) 569 1709
Fax : +962 (6) 569 1354

Ref. Switchgear, Ancillary Equipment and Civil Works
for Amman East 400kV AIS Substation- Contract 45/2005

To whom it may concern,

SUBJECT: Civil works performance.

Dear Sir,

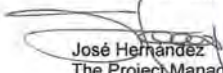

We hereby certify that **KHALIFEH INTERNANTIONAL CONTRACTING CO.** has performed the CIVIL WORKS within our Contract No. 45/2005 with the NATIONAL ELECTRIC POWER CO. of Jordan, relevant to the "Ancillary Equipment and Civil Works for Amman East 400 kV AIS Substation".

The construction activities have taken place during years 2006-2008, including the following tasks for the new AIS substation (among others):

- Civil Engineering Design.
- Earth works (cut and backfilling).
- Boundary walls and retaining walls of Reinforced concrete.
- Control Building (complete with all required services).
- Foundations for gantries and all outdoor equipments.
- Rain water drainage system and pipe culverts.
- Trenches.
- Roads.
- Outdoor Lighting system.
- Guard House.
- Septic tanks, manholes and sewer pipes.

During this period the above mentioned company has successfully completed the works he was entrusted. This certificate has been issued upon the subcontractor's request.

Yours faithfully,

José Hernández
